Lahore Punjab, Pakistan

SENIOR FULL STACK SOFTWARE ENGINEER

Results-driven Senior Software Engineer with over 7 years of experience in designing, developing, and deploying scalable web and mobile applications. Expertise in JavaScript, React, Node.js, and AWS, with a strong background in building performant, user-centric solutions. Adept at leading cross-functional teams, mentoring junior developers, and optimizing software engineering processes.

TECHNICAL SKILLS

- **Frontend:** React, Next.js, JavaScript, TypeScript, Redux, Web Components
 - **Backend:** Node.js, Express.js, NestJS, GraphQL, RESTful APIs, JWT Authentication
 - **Database:** MongoDB, PostgreSQL, MySQL
 - **DevOps & Cloud:** AWS, Docker, Azure, Jenkins, GitLab
 - **Testing & Tools:** Jest, Selenium, Webpack, Axios
-

PROFESSIONAL EXPERIENCE

Afiniti

November 2022 - April 2025

Senior Software Engineer

- Developed and optimized AI-driven solutions using Next.js, Node.js, Jest, NestJS, Webpack, Web Components, Websocket, XMPP Server, and Openfire.
- Worked on WebChat and an AI-based agent-customer portal, where interactions were assigned based on agent skills and customer channels.
- Managed key services, including webchat and web-components, from development to deployment.
- Focused on performance, scalability, and real-time communication.

Macrosoft

March 2022 - November 2022

Senior Software Engineer

- Developed a banking application managing companies that had declared bankruptcy and were given credit loans.
- Built and maintained applications using Jest, Node.js, GraphQL, React, Docker, Redux Toolkit, and GitLab.
- Improved testing, CI/CD pipelines, and API efficiency.

Logixbit Tech

January 2021 - March 2022

Senior Software Engineer

- Developed systems with Next.js, Node.js, Angular, JWT, MongoDB, Axios, and Selenium.
- Built dashboard applications with role-based access for patients, doctors, and administrators.
- Created an interactive dashboard for personal finance management.
- Worked on authentication, database management, and automation testing.

Software Engineer II

- Developed a fitness application, an e-commerce platform, and an event ticket booking system.
- Created applications with React, React Native, RESTful APIs, Firebase, PostgreSQL, Styled-components, Bootstrap, Ant Design, Material UI, and Chakra UI.
- Focused on front-end architecture, UI/UX, and mobile solutions.

Digital Nexus

January 2018 - November 2018

Software Engineer

- Designed intuitive user interfaces and responsive web applications to enhance user experience.
- Optimized algorithms for faster processing, reducing computation time by 20%.

EDUCATION

Government College University Lahore

September 2014 - October 2018

Bachelor of Science in Computer Science

CERTIFICATE

AWS and React: Creating Full Stack Apps	April 2024
Certificate of Appreciation	August 2023
Learning of OWASP	May 2023

KEY ACHIEVEMENTS

- Proven ability to thrive in fast-paced environments, consistently meeting tight deadlines without compromising on code quality.
- Successfully mentored over 10 junior developers, enhancing team efficiency and skill levels.
- Led deployment of a scalable webchat service used by thousands of users globally.
